

POWER

The image shows a modern office interior with a high ceiling featuring a decorative, patterned metal finish and several circular recessed lights. The walls are covered in large-scale murals. On the left, a mural depicts a large steamship with the text 'HARLAND & WOLFF' above it. In the center, a framed portrait of a man in a suit is visible. To the right, another mural shows a ship's hull. The floor is made of light-colored wood. In the background, there is a seating area with dark armchairs and a low wooden table. A glass partition with text is also visible.

POWER MONITORING

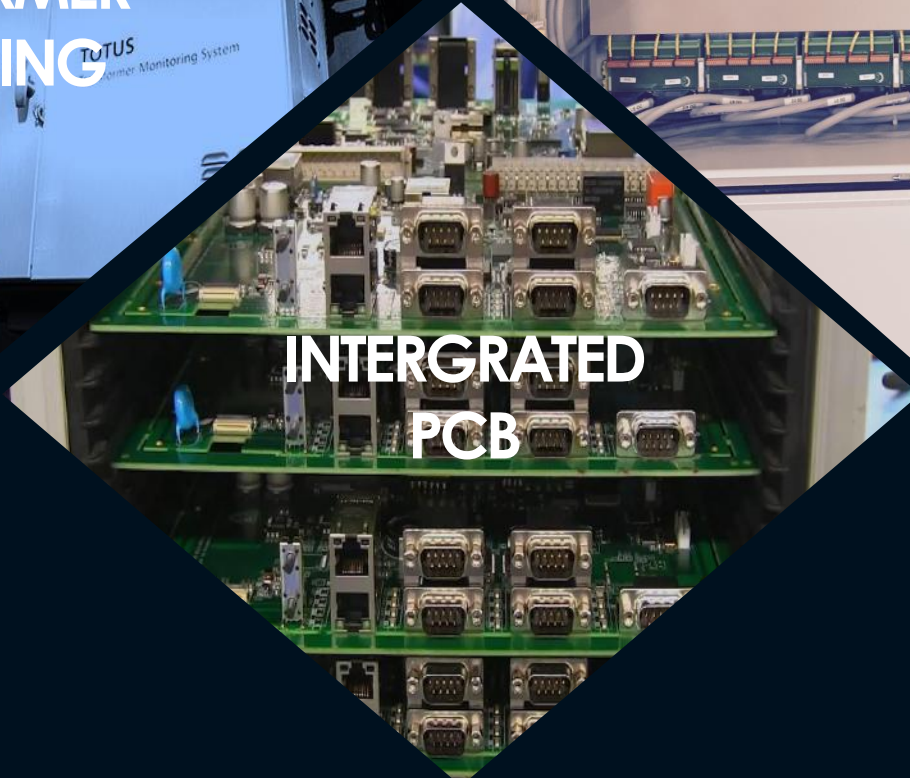

**COMPLETE
TRANSFORMER
MONITORING**

The image shows a large, dark-colored industrial transformer. Attached to its side is a blue rectangular monitoring unit. The unit has the 'CAMLIN' logo at the top and 'TOTUS Transformer Monitoring System' printed below it. There are also some small circular indicators and a lock on the front of the unit.

**SUB STATION
POWER**

The image shows the interior of a substation power cabinet. It features multiple rows of green terminal blocks with numerous colored wires connected to them. The wires are bundled and organized, showing a complex but structured wiring arrangement.

**INTERGRATED
PCB**

The image is a close-up of a green printed circuit board (PCB). It is populated with various electronic components, including several large silver-colored connectors, smaller integrated circuits, and passive components like capacitors. The board is densely packed with components.
